

Daisy® SHOOTING RANGE

Official Airgun Target

Be A Safe Shooter. Know Your Airgun.

Before you ever shoot an airgun, it's your responsibility to learn how it works and where its safety mechanisms are, as well as the guidelines for safe shooting. Always follow these 10 simple rules.

- 1 Always keep the muzzle pointed in a safe direction.
- 2 Treat every gun as if it were loaded.
- 3 Only load or cock a gun when you are shooting.
- 4 Be sure of your target and what is behind it.
- 5 Anyone shooting, or near a shooter, should wear shooting glasses.
- 6 Never climb or jump with a gun.
- 7 Avoid ricochet.
- 8 Keep the muzzle clear.
- 9 Guns not in use should always be unloaded.
- 10 Respect other people's property.
